DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3 August 2009 has been entered.

Response to Amendment

2. This action is responsive to the amendments and remarks received 1 July 2009. Claims 1 - 5, 7 - 10, 12, 13, 15 and 17 - 19 are currently pending.

Specification

3. The amendment to the Specification filed on 1 July 2009 has been entered.

4. The objections to the specification are hereby withdrawn in view of the amendments to the specification received 1 July 2009.

Claim Rejections - 35 USC § 101

5. The rejections to claims 10, 12 - 15 and 17 - 19 under 35 U.S.C. 101 are hereby withdrawn in view of the amendments and remarks received 1 July 2009.

Claim Rejections - 35 USC § 112

6. The rejection to claim 20 under 35 U.S.C. 112, first paragraph, is hereby withdrawn in view of the cancellation of claim 20.

Allowable Subject Matter

7. Claims 1 - 5, 7 - 10, 12, 13, 15 and 17 - 19 (now renumbered 1 - 15) are allowed.

8. The following is an examiner's statement of reasons for allowance: the prior art does not anticipate, nor does it suggest, the combination as now claimed in the newly amended claims. Specifically, generating a three-dimensional model of a spatial structure, wherein a space point is reconstructed by evaluating other image points of further projection images that lie on a respective epipolar line and wherein gray scale values are projected on a projection line are added to form a sum profile having constructive superimposition of the gray values of multiple epipolar lines and averaging out the contributions of other vascular segments, thereby determining a space point of a vascular segment, is not taught nor suggested in the prior art. These element in combination with the remaining components of the independent claims are not taught nor are suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
